

Welcome to the first of many short programs designed for practicing skills necessary for success in Algebra One (and the real world).

Download the two files:

INTSOPS1
INTSINC1

to your computer by clicking on the link on the website.

Click on the instruction link for a pdf instructional guide.
The two .8xp links are TI-84 programs.
Click to download to your computer.
The programs work together. Run INTSOPS1 on your TI-84 CE.

[Instructions](#)
[INTSOPS1](#)
[INTSINC1](#)

Both files have .8xp extensions and can be uploaded to TI-84+ CE calculators via the TI-Connect CE software available at *education.ti.com* or click this link:

<https://education.ti.com/en/software/details/en/CA9C74CAD02440A69FDC7189D7E1B6C2/swt/iconnectcesoftware>

Don't know how to upload files onto the TI-84+ CE go to the end of the instructional guide and look for Appendix A for instructions on how to upload to a calculator from the computer.

INTSOPS1 is short for INTegerS OPerationS version 1. Select the program on your calculator by simply pressing the [prgm] key:

With EXEC highlight on the top bar arrow down to the #: **INTSOPS1** and press [enter] or just select the number (or letter) associated with the INTSOPS1 program.

Appendix A

Uploading via TI-Connect

Download the TI-Connect software using the link below or go to education.ti.com and search for the TI-Connect CE software.

Open TI-Connect on your computer:
